WHEREAS cigarette manufacturers play a crucial role in the creation and distribution of cigarette products. Cigarettes, are responsible for significant environmental damage and contribute to waste and pollution; and

WHEREAS cigarette butts are the most common form of litter worldwide and pose a threat to aquatic life and ecosystems. As reported 26 July 2023 to the Canadian Council of Ministers of the Environment, Pollution Probe's Great Lakes Plastic Cleanup identified cigarette butts one of the top five items of microplastics found in the Great Lakes, and

WHEREAS cigarette filters are composed of non-biodegradable materials that can take several years to degrade, exacerbating the problem of waste accumulation; and

WHEREAS the concept of producer responsibility promotes the idea that the party that profits from the creation and sale of a product should also be responsible for managing the product's end-of-life environmental impact; and

WHEREAS the Province of Ontario has successfully implemented producer responsibility programs for various industries, such as electronics, packaging, and batteries, resulting in significant improvements in waste management and environmental sustainability; and

WHEREAS the exclusion of cigarette manufacturers from current producer responsibility programs in our province creates an inconsistency in environmental policy and hampers our overall efforts to reduce waste and protect our environment.
