DRAWING REQUIREMENTS

Please submit two copies of each separate plan along with your completed application. Ensure that all the information below is included in the plan(s). Depending on the extent of the proposal, **the Planning Division may request a sketch prepared by a professional, and the Committee may require (at the discretion of the Manager of Planning Services) that the sketch be signed by an Ontario Land Surveyor.** This requirement can be clarified by the Planning Staff. The required sketch should be based on an actual survey by an Ontario Land Surveyor or drawn to a usable metric scale [e.g., 1:100, 1:300, 1:500].

To be considered complete, each sketch must identify:

1. The boundaries and dimensions of the land / lot.
2. The location and nature of any easement affecting the land, if applicable.
3. The location, size, height, and type of all existing and proposed buildings and structures on the land, indicating the distance of the buildings or structures from the front lot line, rear lot line and the side lot lines.
4. The parking areas, loading spaces, driveway entrance / exits.

PROCEDURES FOR PROCESSING APPLICATIONS FOR MINOR VARIANCE OR PERMISSION

Once the Secretary-Treasurer has received an application, the application will be circulated to external agencies for up to 10 days to determine whether additional information and/or fees are required. Once comments from these agencies have been received, the Secretary-Treasurer will inform the applicant of any additional information and/or fees required by these agencies (ie. Niagara Region, Niagara Peninsula Conservation Authority). If applicable, the applicant must submit this additional information and/or pay the additional fees for their application to be deemed complete. Once the application is deemed complete, a hearing date will be confirmed in writing by the Secretary-Treasurer.

Prior to the hearing, members of the Committee may choose to conduct a site visit and/or contact the applicants. **Please note that the Committee should not be contacted by members of the public.** Any comments, questions, or concerns should be addressed through the Planning Division.

Following the hearing, the applicant/agent/solicitor will be notified of the Committee's decision in a written Notice of Decision. In addition, any other person or agency who filed a written request for the Committee's decision will be sent a copy. Any applicant objecting to the decision of the Committee, or the condition(s) imposed by the Committee may appeal the decision to the Local Planning Appeal Tribunal within 20 days after the Notice of Decision has been given. The notice of appeal, together with written reasons supporting the appeal and the fee, by certified cheque or money order payable to the Minister of Finance, must be filed with the Secretary-Treasurer, who in turn, will forward the appeal to the Local Planning Appeal Tribunal. The fee is \$300.00 for the first application to be appealed and \$25.00 for each additional related minor variance appeal.

SECTION 5: NATURE & EXTENT OF RELIEF FROM THE ZONING BY-LAW

5.1 Nature and Extent of Relief from the Zoning By-law:

The historic lots are now not large enough to meet current by-law however most of the homes on the firelane do not have a 30meter frontage. In consultation with Jamie Kennedy from Terra Dynamic consulting we changed from making six lots into 3 and made 6 lots into 2 . It was approved without any minor variance required but because of timing to get a development agreement complete we have had to reapply and this time apply for two variances.

5.2 Why is it not possible to comply with the Zoning By-law?

Frontage of lot not 30 meters meters because of irregular shape of lot and historic size of homes on the laneway. The house size which is approved by the region for the septic is 2000 sq ft or 16% of lot. Many of current homes have smaller frontages and overall area thus our design will not negatively impact the historic "look" on the firelane, unlike new approved houses taking up over 60% of the lot area.

5.3 Does the structure(s) pertaining to the application for Minor Variance already exist?

- ☐ Yes
☒ No

5.4 If the answer to 5.3 is YES, has a building permit been issued?

<p>If previous use of property is industrial or commercial or if the answer was YES to any of the above, please attach a previous use inventory showing all former uses of the land, or if applicable, the land(s) adjacent to the land.</p> <p>*Possible uses that can cause contamination include operation of electrical transformer stations, disposal of waste minerals, raw material storage, and residues left in containers, maintenance activities, and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry-cleaning plants have similar potential. Any industrial use can result in potential contamination. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals which are present.</p>
