PROCEDURE FOR PROCESSING CONSENT APPLICATIONS

Once the Secretary-Treasurer has received an application, the application will be circulated to external agencies for up to 10 days to determine whether additional information and/or fees are required. Once comments from these agencies have been received, the Secretary-Treasurer will inform the applicant of any additional information and/or fees required by these agencies (ie. Niagara Region, Niagara Peninsula Conservation Authority). If applicable, the applicant must submit this additional information and/or pay the additional fees for their application to be deemed complete. Once the application is deemed complete, a hearing date will be confirmed in writing by the Secretary-Treasurer.

Prior to the hearing, members of the Committee may choose to conduct a site visit and/or contact the applicants. Please note that the Committee should not be contacted by members of the public. Any comments, questions, or concerns should be addressed through the Planning Division.

Following the hearing, the applicant/agent/solicitor will be notified of the Committee's decision through a written Notice of Decision. In addition, any other person or agency who filed a written request for the Committee's decision will be sent a copy.

Any applicant objecting to the decision of the Committee, or the condition(s) imposed by the Committee may appeal either the decision and/or the conditions of consent to the Local Planning Appeal Tribunal within 20 days after the notice of decision has been given. The notice of appeal, together with written reasons supporting the appeal and the fee, by certified cheque or money order payable to the Minister of Finance, must be filed with the Secretary-Treasurer, who in turn, will forward the appeal to the Local Planning Appeal Tribunal. The fee is \$300.00 for the first application to be appealed and \$25.00 for each additional related consent appeal.

Prior to final consent being issued, written proof must be submitted to the Secretary-Treasurer to the effect that any conditions imposed by the Committee in granting consent have been fulfilled. According to the *Planning Act*, if the consent granted by the Committee is conditional, the conditions must be fulfilled within two years of the giving of the notice of decision. Failure to do so will cause the consent to lapse.

*Possible uses that can cause contamination include operation of electrical transformer stations, disposal of waste minerals, raw material storage, and residues left in containers, maintenance activities, and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry-cleaning plants have similar potential. Any industrial use can result in potential contamination. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals which are present.

I further acknowledge that the City of Port Colborne is not responsible for the identification and / or remediation of contaminated sites, and I agree, whether in (or as a result of) any action or proceeding for environmental clean-up of any damage or otherwise, I will not sue or make claim whatsoever against the City of Port Colborne, its officers, officials, employees or agents for or in respect of any loss, damage, injury or costs.
