Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

This petition will be considered a public document at the town of Port Colborne and the information contained in it will be subject to the scrutiny of the City and other members of the general public.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

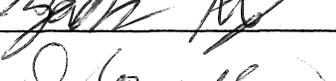

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

even if you signed original  
petition

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

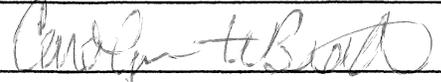

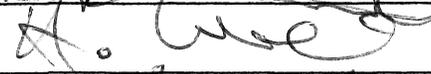

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

This petition will be considered a public document at the town of Port Colborne and the information contained in it will be subject to the scrutiny of the City and other members of the general public.

Petition Organizer Name: Port Colborne Health Coalition

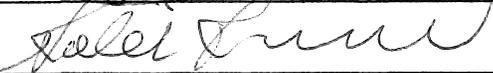

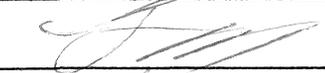

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.

Petition Organizer Name: Port Colborne Health Coalition

To: The Mayor and Members of Council

Subject of the Petition: Port Colborne Hospital and its Urgent Care Center

We, the undersigned, residents of Port Colborne, submit this petition for Council's consideration regarding the services of our Urgent Care in the Port Colborne hospital for the following reasons.

- a) Our Urgent Care serves a population of more than 21,000 and more than 10,000 residents do not have a family doctor
- b) The Port Colborne area has a very large lakeside community and tourist population that need access to health services
- c) Residents who have a family doctor need to be able to access care on off hours, weekends or when their physician is unavailable.
- d) Our city is growing rapidly due to an influx of new industries.
- e) Port Colborne is an important port on the Welland Canal. Health services must be readily available to meet the needs of sailors.
- f) We want our elected council to fight to restore 24/7 urgent care in the Port Colborne hospital and to fight to keep the hospital open until such time that new models of care are established and functioning to meet the needs of the residents

Therefore, we respectfully request, our mayor and council to lead the efforts to save and restore 24/7 Urgent Care services in Port Colborne and to immediately create and pass the motion necessary to enable the City of Port Colborne to deal with Niagara Health and the Ministry of Health of Ontario regarding urgent care.
