Key Facts

- The purpose of this report is to seek Committee's approval for the repeal and replacement of the following By-laws:
 1. By-law No. 2017-56, A By-law to Regulate the Use of the Waste Management System for The Regional Municipality of Niagara (the "Waste Management By-law"); and
 2. By-law No. 83-2016, A By-law to Regulate Access to Closed Landfill and Repurposed Sites Owned by The Regional Municipality of Niagara (the "Closed Landfill and Repurposed Sites By-law").
- The Waste Management By-law was last updated in 2020/2021 to reflect service level changes, including every-other-week garbage collection. Since the last amendment, staff have identified areas of improvement that will provide clarification on existing conditions for enhanced enforcement and public understanding.
- The Closed Landfill and Repurposed Sites By-law was created in 2016 to consolidate various individual naturalization sites by-laws. The 2022 update will address use issues that were not previously contemplated in the 2016 By-law, as well as improve public understanding.

Financial Considerations

There are no anticipated financial implications with the proposed updates of these By-laws.

Analysis

1. Waste Management By-law

The purpose of the Waste Management By-law is to regulate and control the use of Niagara Region's waste management system. Since coming into effect in October 1999, the Waste Management By-law has regularly been revised to reflect changes to waste programs, collection services and requirements.

The current update to the Waste Management By-law is required to address minor housekeeping issues and to increase consistency among similar sections of the Waste Management By-law. The Waste Management By-law update will also allow for improvements in enforcement activity, specifically in regards to illegal dumping in Public Space Litter Bins and on Regional Property.

Outlined below are the proposed Waste Management By-law revisions, which are contained in Appendix 1.

- Additional wording for Green Bin, Grey Bin and Leaf and Yard waste containers to align with requirements for garbage and Blue Box containers;
- Corrected Amnesty Week definition to reflect every-other-week garbage collection;
- Defined Sharps and added Sharps to the short form wording for the set fine of “Setting out hazardous, pathological Materials or Sharps for collection” Set fine amount remains \$500;
- Updated grass references to “Grass Clippings” and included definition of Grass Clippings (i.e. not crab grass or ornamental grasses);
- Remove food wrap from acceptable Grey Box Material;
- Updated definition of Electrical and Electronic Equipment to align with new provincial legislation and categories;
- Added microwaves to the white goods definition – as of October 2020 white goods were no longer collected curbside and can be accepted as scrap metal;
- Added wording to prohibit the illegal dumping of material deemed to have been in the Care and Control of a person, into a Public Space Litter or Recycling Bin;
- Added Type B properties (Multi-Residential) to section 13.6: To be eligible for Garbage collection services, Type B-F Premises must utilize the Region's recycling and organics collection services. This applies to both base and enhanced service. Multi-residential properties using garbage collection must also participate in organics and recycling diversion programs, this change is in line with the existing requirements for Mixed-Use and Industrial, Institutional and Commercial properties;
- Added Regional Property to definition of illegal dumping in order to allow for enforcement of illegal dumping on Regional Property (e.g. Environmental Centre);
- Added requirement for Designated Business Area (DBA) properties, with afternoon collection times to set out their material no earlier than 1 hour prior to collection. This change addresses the issue of DBA's with 5 p.m. collection time, setting out material the day before collection. The set fine in the amount of \$75 is consistent with the current set fine of \$75 for Setting out waste contrary to specified times;
- Updated the definition of Low Density Residential (LDR) premise to include boarding homes with six (6) or fewer rooms, and the definition of Multi-Residential premise to

include boarding homes with seven (7) or more rooms, based on MPAC assessment; and

- Minor clarifications and clerical corrections to the existing by-law wording and definitions have been made to improve public understanding and administration.

2. Closed Landfill and Repurposed Sites By-law

Outlined below are the proposed Closed Landfill and Repurposed Sites By-law revisions, which are contained in Appendix 3.

- Added definition of Organized Activities – any activity which is pre-planned and involves a group of 25 people or more. Set fine in the amount of \$100;
- Consolidating the Memorial Forest, Mental Health area and future COVID-19 memorial into one zone – the Memorial Zone;
- Updated definition of Nuisance in line with comparator municipalities' by-laws;
- Updated sports and games section, to allow for non-dangerous activity (no golf, baseball, etc.);
- Added restriction to prohibit use of snowmobiles or all-terrain vehicles on-site. Set fine in the amount of \$200. The set fine for bringing a vehicle on-site is currently set at \$100. The increased set fine is being proposed for the use of snowmobiles or all-terrain vehicles, as these recreational vehicles have the potential to cause greater damage to Site infrastructure such as monitoring well and landfill cap;
- Additional guidelines for organizers who enter into a Permission to Enter Agreement with the Region (including proof of insurance) to provide 10 days' notice prior to use;
- Added additional wording that prohibits dwelling or squatting on sites;
- Parking has been limited to a maximum of two (2) hours at Repurposed Sites. The previous By-law limited the use of Parking Zones to accessing the particular Site; however, enforcement was challenging due to the lack of time limit restrictions.
- Included trapping to prohibited activities. Updated set fine for hunt, trap or interfere with any animal, fish, bird or nest to \$500 from previous \$100 set fine. The increased set fine is being proposed to further discourage fishing and hunting at Sites as this has been identified a issue by staff;
- Updated Set Fine for bringing in or discharging fireworks or weapon to \$300 from \$100. The increased set fine is being proposed due to the severity of this by-law contravention;

- Updated Set Fine for vandalism to \$300 from \$100. The increased set fine is being proposed due to the severity of this by-law contravention;
- Updated maps provided in Appendix 5, zones and symbolism to correspond with signage on-site; and
- Minor clarifications and clerical corrections to the existing by-law wording and definitions have been made to improve public understanding and administration.

Alternatives Reviewed

Alternatives considered included no changes to the Waste Management and Closed Landfill and Repurposed Sites By-laws. However, the updates to the Waste Management By-law will allow for the improved ability to issue fines for illegal dumping contraventions, which has been identified as a key issue by Committee members and staff. Additionally, not updating the Closed Landfill and Repurposed Sites would result in limited ability to enforce issues that were not previously considered in the original by-law such as the use of the site for organized activities.

Relationship to Council Strategic Priorities

The amendments to the Waste Management and Closed Landfill and Repurposed Sites By-laws will support Council's Strategic Priority of Sustainable and Engaging Government, specifically the promotion of high quality, efficient and co-ordinated core services.

WHEREAS Section 227 of the Municipal Act, 2001, S.O. 2001, c. 25, provides that it is the role of the officers and employees of the municipality to carry out duties required under this or any other Act and other duties as assigned by the municipality;

WHEREAS Section 425 of the Municipal Act, 2001, S.O. 2001, c. 25 provides that a municipality may pass by-laws providing that a person who contravenes a by-law of the municipality passed under this Act is guilty of an offence;
