Enbridge Gas Inc. has applied to the Ontario Energy Board for approval to increase its rates effective April 1, 2023, to recover the costs associated with meeting its obligations under the *Greenhouse Gas Pollution Pricing Act* and the regulations under the *Ontario Emissions Performance Standards*. Enbridge Gas Inc. has also applied to recover from customers the balances in the related deferral and variance accounts and to establish a common Facility Carbon Charge for all customers, effective January 1, 2024.

The federal government's *Greenhouse Gas Pollution Pricing Act* establishes a carbon pricing program under which a natural gas utility in Ontario, such as Enbridge Gas Inc., is required to pay a carbon charge to the federal government for emissions from the natural gas that it delivers to its customers, and for excess emissions from the operation of Enbridge Gas Inc.'s natural gas distribution system. The federal carbon charge came into effect on April 1, 2019, increased on April 1, 2020, April 1, 2021, and on April 1, 2022, and will increase again on April 1, 2023.

The Ontario Emissions Performance Standards program is the Ontario government's carbon pricing system for industrial emitters that will come into effect on January 1, 2022, and replaces the federal government's Output-Based Pricing System in Ontario.

Enbridge Gas Inc. says that if its application is approved as filed, it will have the following bill impacts:

- A typical residential customer in the EGD rate zone (former customers of Enbridge Gas Distribution Inc.) will see a bill increase of \$63.59 beginning April 1, 2023.
