☒ No
☐ Unknown

14.15 Is there reason to believe the subject lands may have been contaminated by existing or former uses on the site or adjacent sites?*

- ☐ Yes
☒ No
☐ Unknown

- Possible uses that can cause contamination include: operation of electrical transformer stations, disposal of waste minerals, raw material storage, and residues left in containers, maintenance activities and spills. Some commercial properties such as gasoline stations, automotive repair garages, and dry cleaning plants have similar potential. Any industrial use can result in potential contamination. The longer a property is under industrial or similar use, the greater the potential for site contamination. Also, a series of different industrial or similar uses upon a site could potentially increase the number of chemicals which are present.

If previous use of property is industrial or commercial or if the answer was YES to any of the above, please attach a previous use inventory showing all former uses of the land, or if applicable, the land(s) adjacent to the land.

ACKNOWLEDGMENT CLAUSE

I hereby acknowledge that it is my responsibility to ensure that I am in compliance with all applicable laws, regulations and standards pertaining to contaminated sites. I further acknowledge that the City of Port Colborne is not responsible for the identification and / or remediation of contaminated sites, and I agree, whether in (or as a result of) any action or proceeding for environmental clean-up of any damage or otherwise, I will not sue or make claim whatsoever against the City of Port Colborne, its officers, officials, employees or agents for or in respect of any loss, damage, injury or costs.
